

# Common-Sense Wisdom

For writers of website [www.common-sensewisdom.com](http://www.common-sensewisdom.com)

Helpful information to know:

Because common-sense is so uncommon in our culture today, this website has been developed to address many of the basic everyday choices people encounter to direct them toward making right decision so they can be blessed.

When accessing an Internet site it needs to catch the attention of the surfer within the first 5 seconds or we lose them. If this site is going to make an impact on lives it will need articles that will address where the people live, and give them helpful basic wisdom.

On the Home page we give a short *part of the first sentence* of an article as a “catch” phrase to draw the reader in; it is helpful to make that first sentence or paragraph compelling.

The length of the article should be - around 450 words.  
If there is more information than one article, it can be developed into 2.  
If the article is not long enough for 2, a limited extension of the article could be considered.

Type: Times New Romans or Georgia, font 12, and *normal formatting*.  
Double space, unless it is edited before sending.  
Put a short, 2 line Bio of yourself on the bottom of the page.  
Attach article to email.  
Church affiliation or denominations are not mentioned because readers are from many denominations.

Sometimes remuneration comes from God’s delight when we serve Him, knowing we are doing just what He purposed for us at this time in life. Because this is a non-compensated opportunity, I need people like you to companion with me to shine a ray of hope and direction into needy lives?

Thank you for allowing God to use you for this website. I appreciate you so much.  
It will be my joy to work with you.
